

THANKSGIVING DAY 2008

re-heating instructions

All of our turkeys are "brined" before roasting for seasoning as well as moisture retention. All turkeys have been fully cooked to an internal temperature of 165F.

Whole turkey and turkey breast: Remove the turkey from the plastic bag and place in the disposable aluminum pan, cover loosely with a foil tent and place the turkey into a preheated 325 degree oven for 10 minutes per pound.

Boneless turkey breast	approximately	25-30 minutes
Whole turkey 10-12 pounds	approximately	1 ½ hours
Whole turkey 12-14 pounds	approximately	2 - 2 ¼ hour
Whole turkey 14-16 pounds	approximately	2 ½ - 2 ¾ hours
Whole turkey 16-18 pounds	approximately	2 ¾ - 3 ¼ hours

All black containers are oven proof and microwavable
